

🍰 ✨ Creator Onboarding ✨ 🍰

🌟 Welcome to the Program 🌟

Hello and Welcome 🤗🌟

Thank you for adding me and becoming part of the growing **Referral Group**. I am genuinely delighted to see you online and taking your first steps. 🤝

Starting something ‘New’ can feel exciting and a little uncertain at the same time. That is completely normal. My role is to help guide you ‘Step by Step’ so you feel confident, supported, and never overwhelmed. 🤍

Sometimes the ‘**Registration and Approval Process**’ can take a little time while everything is verified by the platform. This stage can feel slow, but once approval is complete, things usually begin to move forward much more quickly. 🚀

While you are waiting, this is the ‘**Perfect time**’ to ‘**Create Additional Content**’ so you have material ready to upload when your page becomes fully active. 🎥🌟

Having ‘**Content Prepared**’ in advance makes it ‘**Much Easier to Build Momentum**’ once everything goes live. 📈

📈 Content and Upload Strategy

One of the most common questions I receive is ‘**How Much Content**’ a creator should upload?

The honest answer is this: there is ‘**No**’ **single correct number**. Every creator has a different lifestyle, different time availability, and different creative preferences.

- ✅ **Some creators upload regularly throughout the week**
- ✅ **Other creators create content in batches and schedule it over time**

Both approaches work very well.

The key is ‘**Consistency**’..... **Not** pressure. 🌱

A good starting point for many creators is uploading ‘**Once Every Three to Four Days**’. This keeps your page active, helps build steady traffic, and allows your audience to grow without the process becoming stressful. 😊

‘As your page grows, you will begin receiving friend requests’...🌸🌸🌸

You do not need to personally communicate with every follower. However, accepting genuine requests **‘Helps Increase Your Visibility’** and reach. 🧐✨

Each time you upload new content, **‘Your Followers Receive a Notification’**. That notification brings visitors back to your page and increases your views. Over time this creates steady activity and a growing audience. 📈❤️

👉 How I Support Creators

To help creators succeed, I run a structured support program alongside the platform.

You will receive regular guidance designed to help you:

- **Understand how the industry works**
- **Structure your page correctly**
- **Attract more visitors**
- **Turn traffic into steady income 💰**

This program is built around a simple framework called I call **‘The Bakery Academy’** 🧁

The idea is simple:

- 🏪 **Your page works like a shop**
- 🧁 **Your content is the product**
- 👥 **Your visitors are the customers**

When everything is **‘Organised Correctly’**, the shop begins to **‘Attract Visitors’** Naturally!! ✨

Because the program includes **‘Creators from Round The World’**, I also send regular guidance so everyone receives useful strategies as they grow. 🌍❤️

‘Whenever possible, I respond personally’... 🌸🌸🌸

You are always **‘Welcome to Message’** me if you need help. You may send several messages if you have multiple questions. There is no need to wait between them. 😊

Language Support

The initial introduction is written in **'English'** because it is my native language.

If you reply with a simple message in **'Your Own Language'**, I will continue the conversation in that language whenever possible.

This helps make sure everything is clear and easy to understand as we work through **'The Bakery Academy© Program'** together. 

Small Profile Tip

One small improvement that can **'help your visibility'** is adding your **'Nationality'** to your profile and completing your **'Likes'** and **'About Me'** sections.

Many viewers search based on **'Nationality'** or **'Personal Interests'**. Including this information can help bring the right audience to your page.

If you prefer to keep your location private, that is completely acceptable. The platform also provides **'GEO-Blocking'** features to help protect your privacy. 

Co-Performer Verification Support

Co performer verification can sometimes feel confusing, so I want to explain it clearly.

There are two common ways for a co performer to complete verification.

-  **Option 1 – Digital Verification** 

This method uses a verification system and usually works best on a mobile phone.

They will need to:

- **Upload a clear photo of a passport or driving licence**
- **Take a live selfie to confirm identity**
- **Follow the steps until the process shows as completed**

For most people, this is the fastest option....

-  **Option 2 – Printed Release Form** 

If the digital method does not work or takes too long, the printed method can sometimes be easier.

They will need to:

- **Print the release form**
- **Sign it by hand**
- **Hold the signed form together with their photo identification**
- **Upload a clear image of both documents**

(This image is used only for verification and will never appear publicly on your page. )

Helpful checks if verification seems slow:

- **Check spam or junk email folders**
- **Look for confirmation messages that require additional steps**
- **Confirm the process was fully completed**

If everything looks correct but approval is still pending, it is always a good idea to contact platform support and ask them to confirm that nothing is missing. 

The Bakery Academy© – Mini Introduction

(So, Everything Makes Sense)

Now ‘for’ the fun part 

Imagine ‘You’ have just gone into a new business venture and...

You Are The Proud Owner Of A Bakery Shop

- **Your profile is your shop window**
- **Your photos are your display shelves**
- **Your videos are your products**

The goal is simple: invite people inside your shop.  

Step 1 – Your Shop Window

Open the blinds and make your shop look welcoming. Fill out your profile as completely as possible. Even a short ‘**About Me**’ section helps.

Step 2 – Display Shelves

Your galleries act as ‘**Free Advertising**’. Adding photos gives visitors a reason to stay and explore.

Step 3 – Foot Traffic

Think of friend requests as ‘**Visitors Entering Your Bakery**’. Accept every ‘**Genuine Friend**’ request. You do not need to speak with every person, but accepting requests increases your reach.

🌟 The Right Mindset

The most important thing to remember is that this process is about ‘**Working Smart, Not Hard**’.

There is ‘**No Pressure**’. Move at your ‘**Own Pace**’ and build your page around ‘**Your Life**’. What works for one creator may not be right for another, and that is perfectly fine. 😊

If you continue building ‘**Step by Step**’, your page can grow into a business that attracts visitors and keeps your bakery products moving. 🧁📈

I am very happy that you have ‘**Joined**’ and I look forward to supporting you as your page develops over the months to come.

Oh, and one small note: ‘**My real name is actually Melanie**’. ‘**Flowers**’ is part of my Stage Name... You may call me Mel or Melanie if you prefer. 😊🌸

Melanie xx 🌸🌸🌸
